world builders

Sponsoring Conference to Restore Humanity! 2027, coming July 26-28, 2027

the conference

World Builders is Conference to Restore Humanity! 2027, a virtual conference where students lead nearly every session. Teams from schools around the country will show how they led professional development, redesigned how their schools run, and organized in their communities. Educators come to listen and ask questions.

why sponsor

Ticket sales don't cover what the conference costs. Students attend free and educators pay $50, so sponsors make up the difference and pay for free tickets for educators who couldn't otherwise come. We also post most of the recordings and resources for free afterward.

who comes

Past conferences drew 125 to 150 educators a year, mostly K-12 teachers, plus some professors and education consultants. Every keynote and session since 2022 is free to watch at humanrestorationproject.org/conference.

> *"I attend many conferences, and help to plan some myself, but the Conference to Restore Humanity is by far the most valuable professional development I attend."*
>
> Past attendee

sponsorship levels

	advocate $5,000+	sustainer $2,500+	partner $1,000+
